Explore the meaning of “trauma-informed” and how it impacts our clients, our colleagues and ourselves.

Gain actionable approaches for a trauma-informed workplace, using the Substance Abuse and Mental Health Services Administration’s (SAMHSA) definition.

Join us for this experience as we:

- understand vicarious trauma;
- recognize signs in self, clients and colleagues;
- respond to signs and enact a care plan; and
- realize the importance of an on-going care plan to reduce and prevent re-traumatization.
